Hello, I'm Ranjan Kumar. I'm an undergraduate student of B.Tech 3rd year, resident of Dumka. Also, I'm involved in family businesses.

My life was going good, but somewhere I needed a controller (guide/counsellor) from when I was 8th or 9th standard (in 2012, 2013). Also, I was unable to find someone to share my issues. Then I discussed with my friends and decided that you'll guide me and I'll guide you but we were not competent at that time because we both were of same intellects. Also, I didn't understand the emotions, didn't know how to take important decision.

For some business relating work, I met to Mr. Chandramani. Then after a long time he discussed it with me with a great example of Pilot Abhinandan Varthaman and his guide behind his success which made a great sense to me. I understood the importance of guide in ever body's life. Therefore, I approached him for counselling/ guidance. I started to attend the session of MYP (Making You Powerful). Now I've a guide to direct me in different roads. I discuss my issues with him and I get the solutions of my issues. Also, I don't get emotionally break. And now many issues have been resolved (about focus, about low energy, not getting up early morning, about memory, dental issues, about marriage, etc., etc.)

The sessions of MYP helped me a lot to grow up. I wholeheartedly recommend the sessions of Making You Powerful (Founded and led by Mr. Chandramani) to everyone.

Thank you 🙏🙏🙏🙏🙏🙏
